Product Description

1-8 CBM Affordable Plastic Automatic Mini Fuel Station

Product Description:

The Mini Fuel Station is UL listed and CSA certified, ensuring that it meets the highest safety standards. You can rest assured that this mini gas station will provide you with safe and reliable fueling every time. The automatic nozzle type further adds to the safety of the Mini Fuel Station, as it prevents fuel spillage and reduces the risk of fire hazards.

The 6 feet hose length provides you with the flexibility you need to easily fuel up your vehicles or equipment, without having to move the Mini Fuel Station around. This mini gas station is made of plastic, making it lightweight and easy to transport. You can take it with you wherever you go, whether you need to fuel up your boat, RV, or other vehicles and equipment on the go.

The Mini Fuel Station is perfect for those who need a compact and portable fuel dispenser that can provide efficient and reliable fueling. Whether you are a farmer, landscaper, construction worker, or simply need to fuel up your personal vehicles and equipment, the Mini Fuel Station is the perfect solution. With its high flow rate, certifications, automatic nozzle type, and lightweight design, this mini gas station is a must-have for anyone who needs to fuel up on the go.

Features:

Product Name: Mini Fuel Station

Dimensions: Customized

Certifications: UL Listed, CSA Certified

Application: Gasoline, Diesel, New Energy

Model: C1

Hose Length: 6 Feet

This mini fuel station is a mobile fuel station that is perfect for gasoline, diesel, and new energy applications. Its dimensions can be customized to fit your specific needs. It is UL listed and CSA certified for safety and reliability. The C1 model comes equipped with a 6-foot hose for easy fueling.

Technical Parameters:

Power Source	Electric
Dimensions	Customized
Color	White
Certifications	UL Listed, CSA Certified
Application	Gasoline, Diesel, New Energy
Capacity	1-8CBM
Hose Length	6 Feet
Safety Features	Overfill Protection, Automatic Shut-off
Voltage	220V
Material	Plastic

Applications:

The Virette Mini Fuel Station is suitable for a wide range of application occasions and scenarios. It is ideal for construction sites, mining operations, and other industrial activities that require a steady supply of fuel. It is also perfect for remote areas where there are no gas stations nearby. The Mini Fuel Station can be transported to these areas and provide fuel to the people living there. This product is perfect for individuals who own a fleet of vehicles and need to refuel them regularly. The Fuel Mobile Dispenser can be used to dispense fuel to various vehicles at different locations.

The Virette Mini Fuel Station is available in white color and can be customized to meet the requirements of the customer. The dimensions of the fuel station can be adjusted based on the needs of the customer. The Mini Fuel Station operates on 220V voltage and can be used in any location with a power supply. It is priced between 1000-5000USD, making it an affordable solution for those who need a mobile fuel station.

The delivery time for the Virette Mini Fuel Station is 20 days, ensuring that customers receive their products in a timely manner. The product is easy to use and comes with all the necessary features to ensure safe and efficient fuel dispensing. With its mobility and versatility, the Mini Fuel Station is the perfect solution for those who require a reliable and efficient mobile fuel station.

In conclusion, the Virette Mini Fuel Station is a product that caters to the needs of a wide range of customers. It is a mobile fuel station that can be used in various application occasions and scenarios. Whether it is for construction sites, mining operations, or remote areas, the Mini Fuel Station is the perfect solution for those who require a steady supply of fuel. With its affordability, customization, and ease of use, the Virette Mini Fuel Station is a must-have for individuals and businesses that need a reliable and efficient fuel dispensing solution.
