Basic Information

- Place of Origin: China
- Brand Name: Virette
- Model Number: f0

Product Specification

- Duty Circle: 30 Min
- Weight: 15Kgs
- Type: Electric
- Sealing Ring Included: Yes
- Outlet: NPT2"
- Warranty: 1 Year
- Inlet Type: Strainer
- Compatibility: Universal
- Highlight: **NPT2 Enhanced Electric Fuel Pump ,
NPT2" Diesel Engine Fuel Pump,
Strainer Diesel Engine Fuel Pump**

Product Description

NPT2 Enhanced Electric Fuel Pump For Diesel Engines (15Kgs)

Product Description:

One of the key features of this Fuel Pump is its universal compatibility. This means that it can be used with a variety of fuel types, making it a great choice for anyone who needs a pump that can handle different types of liquid fuels. Whether you're dispensing gasoline, diesel, or another type of fuel, this pump is up to the task.

The Fuel Pump is also designed to be durable and long-lasting. It has a duty cycle of 30 minutes, which means that it can run for extended periods without overheating or experiencing any other issues. This makes it a great choice for commercial settings where the pump will be in constant use.

In addition to its compatibility and durability, the Fuel Pump also comes with a float included. This float helps to regulate the flow of fuel and ensure that the pump is working at an optimal level. The float is an essential component of the pump and helps to prevent any damage or issues that could arise from improper fuel flow.

Finally, the Fuel Pump features an inlet type of strainer. This strainer helps to prevent any debris or contaminants from entering the pump and causing damage. It also helps to ensure that the fuel being dispensed is clean and free from impurities.

Overall, the Fuel Pump is an excellent choice for anyone in need of a high-quality and reliable fuel pump. Its universal compatibility, durability, and included float make it an ideal option for a wide range of settings, from commercial fuel dispensing pumps to filling station dispensers and liquid fuel dispensers.

Features:

Product Name: Fuel Pump

Sealing Ring Included: Yes

Inlet Type: Strainer

Outlet: NPT2"

Engine: Diesel Fuel Engine Parts

Weight: 15Kgs

This Fuel Pump is an essential component of any Electric Fuel Delivery System, making it a reliable Fuel Dispensing Pump for use at Petroleum Transfer Stations.

Technical Parameters:

Float Included	Yes
Warranty	1 Year
Weight	15Kgs
Compatibility	Universal
Sending Unit Included	No
Engine	Diesel Fuel Engine Parts
Inlet Type	Strainer
Outlet	NPT2"
Type	Electric
Duty Circle	30 Min

This Fuel Pump is an Electric Fuel Delivery System that works as a Liquid Fuel Dispenser, compatible with Filling Station Dispensers.

Applications:

The Virette f0 Fuel Pump is compatible with a wide range of vehicles, making it a universal solution for your fuel delivery needs. Whether you're working on a car, truck, or other type of diesel engine, this fuel pump is a reliable choice.

With an outlet size of NPT2" and a float included, the Virette f0 Fuel Pump is easy to install and use. The float helps to regulate fuel flow, ensuring that your engine receives the right amount of fuel at all times.

Whether you're a professional mechanic or a DIY enthusiast, the Virette f0 Fuel Pump is the perfect choice for your automotive fuel supply needs. With its high-quality construction and reliable performance, this fuel pump is sure to provide years of trouble-free operation.

Some of the most common product application occasions and scenarios for the Virette f0 Fuel Pump include:

Replacing a faulty or worn-out fuel pump in a diesel engine

Installing a new fuel pump as part of a routine maintenance program

Upgrading to a more efficient and reliable fuel pump for improved engine performance

Repairing a fuel delivery system that is not functioning properly

Overall, the Virette f0 Fuel Pump is an essential component of any diesel fuel engine parts, providing reliable and efficient fuel delivery for your vehicle. Whether you're a professional mechanic or a DIY enthusiast, this automotive fuel supply device is sure to meet your needs.

Customization:

Customize your Virette f0 Fuel Pump to fit your specific needs with our product customization services. Our fuel pump is designed for Diesel Fuel Engine Parts and comes with a float included for accuracy. The sending unit is not included, but can be added on with our customization services.

Our fuel pump is made in China and comes with a 1 year warranty. It has a weight of 15Kgs and is the perfect solution for your Gasoline Infusion Machine or Petroleum Transfer Station.

Packing and Shipping:

Product Packaging:

1 Fuel Pump

Installation instructions

Warranty information

Shipping Information:

Shipping weight: 2 lbs

Dimensions: 6 x 6 x 8 inches

Shipping carrier: UPS
