Product Description

Electric Gas Transfer Pump Without Sending Unit 15Kgs Diesel Fuel Engine Unit

Product Description:

Our Gasoline Transfer Pump is built to last, with a durable construction that ensures long-lasting performance and reliability. It features a strainer inlet type that helps to prevent debris from entering the pump, ensuring clean and efficient fuel transfer every time.

With a 1-Year Warranty, you can be confident in the quality and longevity of your new Fuel Pump. Plus, with a Sealing Ring included, installation is a breeze and you can rest easy knowing that your pump is fully sealed and leak-free. Please note that a Sending Unit is not included.

One of the best things about our Universal Gasoline Transfer Pump is its compatibility. It is designed to work with a wide range of engines and vehicles, making it a versatile and valuable addition to your workshop or garage. Whether you're working on cars, trucks, boats, or other vehicles, this pump is sure to come in handy.

So why wait? Order your Gasoline Transfer Pump today and start enjoying the benefits of reliable fuel transfer and effortless installation. With its robust construction, efficient design, and universal compatibility, this pump is the perfect choice for any mechanic or DIY enthusiast.

Features:

Product Name: Fuel Pump

Sealing Ring Included: Yes

Warranty: 1 Year

Compatibility: Universal

Inlet Type: Strainer

Sending Unit Included: No

This Fuel Pump is a petrol pumping unit that comes with a sealing ring included for easy installation. It is compatible with most vehicles due to its universal compatibility and has a strainer inlet type. With a 1 year warranty, this gasoline transfer pump is a reliable choice for your fuel system needs.

Technical Parameters:

Inlet Type	Strainer
Duty Circle	30 Min
Engine	Diesel Fuel Engine Parts
Sealing Ring Included	Yes
Compatibility	Universal
Sending Unit Included	No
Float Included	Yes
Type	Electric
Outlet	NPT2"
Warranty	1 Year

This Gasoline Transfer Pump, also known as a Gasoline Infusion Machine or Petroleum Transfer Station, is perfect for transferring fuel from one container to another.

Applications:

The fuel pump comes equipped with a float that ensures the efficient transfer of fuel and gasoline. The duty circle of the Virette F0 is 30 Min. This attribute makes it ideal for use in scenarios where continuous fuel transfer is required.

The inlet type of the Virette F0 is Strainer. This attribute makes it easy for the product to filter out impurities that may be present in the fuel. The product is suitable for use in scenarios where the fuel quality is not guaranteed.

The Virette F0 comes with a warranty of 1 year. This attribute assures the customers of the product's quality and reliability. In case of any defects, the customers can get it repaired or replaced within the warranty period.

Petroleum Transfer Station: The Virette F0 is an ideal product for use in Petroleum Transfer Stations. The fuel pump's ability to transfer fuel and gasoline efficiently makes it an ideal fit for this scenario.

Gasoline Infusion Machine: The Virette F0 is a perfect fit for Gasoline Infusion Machines. The product's duty cycle of 30 Min makes it an ideal fit for scenarios where continuous fuel transfer is required.

Fuel Dispensing Pump: The Virette F0 is a suitable product for Fuel Dispensing Pumps. The product's inlet type of Strainer makes it ideal for use in scenarios where the fuel quality is not guaranteed.

Customization:

Our product customization services for the Virette f0 Automotive Fuel Supply Device include:

Brand Name: Virette

Model Number: f0

Place of Origin: China

Outlet: NPT2"

Duty Circle: 30 Min

Inlet Type: Strainer

Sealing Ring Included: Yes

Sending Unit Included: No
